Breed's fledgling homeless-services agency and a major developer face the daunting challenge of building a new City Hall without the state's \$16 billion in cash to lure startups and jobs, much less solving the homelessness problem. But in the first substantial tax incentive deal for the Bay Area in months, the city is offering the developers of the massive Rincon Hill development a generous carrot to persuade them to build a new City Hall where they can expand the site, adding 1,600 homes and 200,000 square feet of office space on a 6.2-acre lot at the heart of the booming Rincon Hill neighborhood, across the street from City Hall. "If they want to take over the city and build City Hall, it'll be a home run," said Joshua Cohen, who oversees the city's economic development agency, SFEDC. As part of the deal, the project's developers, The Boston Foundation, would receive \$1.6 billion in tax credits over 15 years from the state to help build 3,400 housing units, as well as 2,000 square feet of office space and 7,700 parking spaces. The property, the largest parcel of land the city has offered for redevelopment in decades, had been attracting attention in recent months, and could eventually encompass 6.7 acres of prime real estate. The agreement, reached over the weekend, is the latest step in a multiphase effort by Breed and Mayor Ed Lee to convince developers that developing Rincon Hill is the best and easiest way to solve the city's long-simmering problems related to homelessness and housing 50b96ab0b6

Neil Schulze, first published in paperback in 1986 by DAW Books as part of their Swords and sorcery collection. It features illustrations by Thomas Baxa and gameplay illustrations by Charles Roberts. Plot summary Quong the thief is a hero in the Markovian empire, and his exploits have secured him an excellent position in the service of Empress Chabi, who has called him to be her hand. He is quartered in a mansion called the Rock and is awaiting a series of adventures, which, if he survives, are supposed to culminate in a duel between him and a would-be usurper (who bears a striking resemblance to the actual usurper). When Quong is called from his quarters and told that the usurper has escaped, he is caught in a trap set by his enemies, and must escape alone on his horse. While riding, he meets a mysterious traveler who reveals her true identity and is captured by an armored bear-dog. She discovers that the usurper is a woman who is fleeing the law, and agrees to reveal the location of the usurper only if Quong helps her escape. Quong flees across the desert, and arrives at the palace of the true usurper and discovers that his political maneuvering has been used to steal his identity, and that the empress has been brainwashed by a seductress called the She-Devil into falling for Quong. It is revealed that Quong is the lineal descendant of the Beast, who was thought to have perished long ago, and that his fall from political grace has only recently occurred.
